

Our goal is to discover advanced tools which tackle some of the refugees needs that live in Europe, with special regard for those originating from Syria. The plan of the project has been founded on a past investigation of the entities. This review has enabled us to distinguish the qualities of every one to have the capacity to help displaced people, organizing those that can be secured by one of the partners through the trading of good practices and training.

Main objectives. At the end of the project, youth workers that participate in it can expect to have:

1. Enhanced their insight about the displaced people's circumstance in the three nations included, including the location of their principle needs.
2. Adapted new procedures to convey business enterprise to youth and youthful displaced people.
3. Learned, rehearsed and demonstrated to accomplishment in activity layout and usage.

The main activities in the Project include:

- a) The acknowledgment of three transnational meetings, in which the working arrangement will be reviewed and we will assess the current situation of the project.
- b) Two learning activities:
 - The first will be a 3-day participatory visit to Turkey, in which the guests will find out about the displaced people's issues on their entry to Europe.
 - b.2) A 10-day course in Spain with the assistance of 19 participants, whose goal is to learn and encounter a participatory and imaginative strategy for project outline and enterprise. The strategy of the course will associate each hypothesis lesson with pragmatic cooperation to mutually characterize the key ranges expected to begin composing an sustainable activity (targets, extend objective, arranging tasks, planning, economy and gathering pledges) and engage and motivate the participating team (facilitation, conflict management, reflection and constructive feedback, innovation, creativity and collective intelligence).
The contents will be: M1. Introduction to the project design. M2. Building teams. M3&4. Planning projects. M5. Partners' experience with refugees and digital tools. V1. Visit to the NGO "Cantabria Acoge". M6. From planning to action. V2. Visit to Red Cross. M7. Group dynamics. M8. Social entrepreneurship. V2. Visit to Red Cross.
- c) Five exercises whose goal is to supplement, set in motion and scatter the information got in the learning exercises:
 - In order to connect the situation of the refugees in Turkey with the situation in the other two countries involved, the three entities will draft a joint report that includes the situation of this target group in each country.
 - During the project outline course, the members will set up regular objectives and methodology to characterize a communitarian extend whose reason for existing is the advancement of a digital tool that can add to the welfare of youthful outcasts in Europe. This new venture will be characterized in detail in the second year of the key organization and will be comprehensive of the elements cooperatively composing the content of the venture that will be introduced in the Erasmus+ call of April 2020.
 - keeping in mind the end goal to guarantee that the learning results achieve all individuals from the associations, an internal dissemination campaign will be carried out at each of the entities during the diverse periods of the venture, with a workshop highlighting an outline of practices traded and lessons learned.
 - A conference in Spain to share the learning and outcomes achieved during the project with other entities out of this partnership.
 - A promotional video of the project will be made and spread using the social networks of the organizations.
